**TO WHOM SO EVER IT MAY CONCERN**

This is to certify that we have used the air purifiers manufactured by Airocide in our PICU during the year 2008.

The air purifiers had shown a significant drop in bacterial counts. This was a part of a study carried out by the manufacturers.

We were extremely happy with the technical support and the interactions with Airocide and Great White Technologies.

Yours truly,

Dr. Ravindra Karanjekar.
