 **GreatWhite**[®]
uPVC Conduit Pipe

Welcome to the world of Great!

I was thrilled with GreatWhite's vision of providing an extraordinary lifestyle and was fascinated by the revolutionary products that brand has developed in the home electrical space. The brand has redefined the meaning of comfort with solutions that are not only innovative but at the same time environment friendly too. The idea of creating a comfortable lifestyle with a sustainable environment is the true meaning of luxury and this enticed me for the association with the brand.

With this association as brand ambassador of GreatWhite, I feel privileged to promote luxury and comfort to consumers across the globe. The world is changing and I believe the need for convenience and safety is the need of the contemporary world. Brand's philosophy of providing a better life with innovative and ultra-modern solutions resonates with my personality. Moreover, the commitment towards work and relentless efforts to create the products of exceptional quality and standards, sync with my belief.

I welcome you to this journey of luxury indeed to a journey of Great.

PRIORITIZING SAFETY

The world around us is growing at a rapid pace. The necessities and demands of contemporary households have transformed. At GreatWhite, we understand that with the increase in standard of living, there is an increase in demand for safety and hence we are creating solutions for the changing lifestyle. Since its inception, GreatWhite has developed revolutionary products made from highest quality raw materials and has set a benchmark in the home electrical industry.

GreatWhite brings electrical conduits that are manufactured from a specially formulated unplasticised polyvinyl chloride (uPVC) to meet the demands of the contemporary homes. Made from extra virgin uPVC, GreatWhite conduits have higher impact strength and can withstand the toughest installation environment. GreatWhite conduits provide immense protection to wires against evolving times and situations.

Experience Quality At Every Instance

GreatWhite has manufactured quality home electrical products for more than a decade and has set up a state of the art uPVC conduits and accessories manufacturing unit with advance machinery. The manufacturing unit is well equipped with a modern laboratory for testing according to Indian and International Standards. uPVC conduits and accessories are manufactured from high grade raw materials formulated and manufactured in-house to have better control and consistency. uPVC accessories and fittings are moulded in-house with stringent quality checks.

An Output of Stringent Manufacturing & Quality Practises

GreatWhite uPVC conduits are designed to meet the most stringent Indian and International Standards and pass all tests of safety. The conduits come with one socketed end that helps in fast and easy installation. Durable, fire retardant, corrosion free and thermal resistant from -5°C to + 60°C with a smooth finish from inside, makes pulling and installation of the wires easy. Designed with great precision and manufactured with high quality practices, the conduits provide safety in wiring installations in high-rise buildings, the hospitality industry, government infrastructures, residential and commercial spaces.

KEY FEATURES

VIRGIN PVC GreatWhite's uPVC conduits are manufactured with virgin uPVC (a polyvinyl chloride in a pure form) material and modern technology. uPVC conduits have great strength, flexibility and durability that make them favorable for electrical applications.	HIGH IMPACT GreatWhite uPVC conduits have high mechanical strength that is attested by various tests. Hence it can be used in high rise buildings, hospitality industry, government infrastructure and other residential and commercial spaces.	CORROSION FREE GreatWhite uPVC conduits are non-corrosive in nature and remain non affected by corrosive materials, humidity and other chemical reactions making them ideal conduits at various sites.
SPRING TEST COMPLIANT GreatWhite uPVC conduits have passed the spring test that proves the conduits have high strength and flexibility that prevents it from breaking and cracking.	SOCKETED END GreatWhite uPVC conduits come with one socketed end that helps in fast and easy installation.	LEAD FREE GreatWhite uPVC conduits are lead free hence making it harmless to the environment and living beings.
RoHS COMPLIANT GreatWhite's ROHS compliant uPVC conduits ensure non-inclusion of harmful and toxic substances and are safe for the environment.	QUICK & EASY INSTALLATION GreatWhite uPVC conduits have a smooth finish from the inside that makes pulling and installation of the wires easy.	FIRE RETARDANT GreatWhite uPVC conduits do not support combustion and are designed to resist the spread of fire preventing excessive damage during hazardous situations.
